Declaration of Conformity Protadur®

The product range Protadur® of Westfalen AG is manufactured according to EN ISO 22000, including a HACCP concept. Food gasses are listed in EC Regulation 1129/2011/EC (amending Annex II to Regulation 1333/2008/EC) as approved food additives.

Westfalen AG is certified according to DIN EN ISO 9001. Product quality is monitored within a quality management framework certified compliant with DIN EN ISO 9001.

All production sites are registered by the proper authorities as being in accordance with EC Regulation 852/2004/EC.

The manufacture and traceability of the products is assured in accordance with EC Regulation 178/2002/EC.

The specifications are at least in accordance with EU Directive 231/2012/EU. These products do not contain genetically modified organisms in accordance with EC Regulations 1829/2003/EC and 1830/2003/EC, nor have they been produced from or by genetically modified organisms in accordance with regulation (EC) 834/2007.

These products do not contain any allergens in accordance with regulation 1169/2011/EU and no ingredients that under EU Regulation 1169/2011/EU are to be stated on the labeling of food products. The used packaging at least complies with the requirements of Regulation 1935/2004/EC.
